Angelic Hospice

What is Hospice?

Hospice is a special concept of care designed to provide comfort and support to patients and their families when a life-limiting illness no longer responds to cure-oriented treatments.

Hospice care neither prolongs life nor hastens death. Hospice staff and volunteers offer a specialized knowledge of medical care, including pain management.

The goal of Hospice is to improve the quality of a patient's last days by offering comfort and dignity.

Hospice addresses all symptoms of a disease, with special emphasis on controlling pain and discomfort.

Hospice deals with the emotional, social and spiritual impact of disease on the patient and the patients' family and friends, as well as a variety of bereavement and counseling services.

Hospice care is provided by a team-oriented group of specially trained professional, volunteers and family members

Angelic Hospice approaches Hospice care as a journey rather than a destination. We bring over 20 years of experience of ministering to the needs of our patients and their families during a difficult transition.

Angelic Hospice's services include:

- Medication related to the patient's terminal diagnosis
- Emotional, spiritual and bereavement support
- Assistance with personal care and activities of daily living as needed.
- Medical equipment to meet the needs of the hospice patient.
- Pain and symptom management
- Inpatient care customized to meet the needs of the patient.
- Respite care for overwhelmed caregivers.
